Please contact our manager, Mark, on **0151 643 1068** to arrange your viewing of the home!

You can expect a safe and secure environment at our Evergreen Lodge Care Centre in the Wirral.

Our care centre is a friendly and safe environment for people who experience a range of specialist mental health care needs. We understand how challenging day-to-day life can be, and our well experienced staff provide a sense of independence and security. We have seen the benefits of encouraging an independent lifestyle, so we actively encourage this with all of our residents.

Evergreen Lodge is a three story 40 bed building providing nursing and specialist care. The care home boasts landscaped gardens and enclosed courtyards allowing residents to explore the grounds safely and securely.

This care centre is located a few minutes from Birkenhead town centre which has fantastic facilities and transport routes into Liverpool and nearby popular coastal destinations.

Our Care Philosophy

Our staff aim to uphold the highest standards of holistic and dementia care to all our residents, whilst also encouraging and maximising resident independence. We look to learn as much as we can about our new residents prior to them joining to provide the most suitable environment for them. Making sure all our staff are well-educated on every resident's specific needs and requirements is vital for providing a safe and secure environment, so we also conduct regular assessments to update residents' personal care plans. Each resident is assigned a healthcare professional who will oversee their general care and make sure their wellbeing is upheld.
