Evergreen Lodge specialises in Dementia Care. The Bungalow has been specifically designed to care for people with Early Onset Dementia.

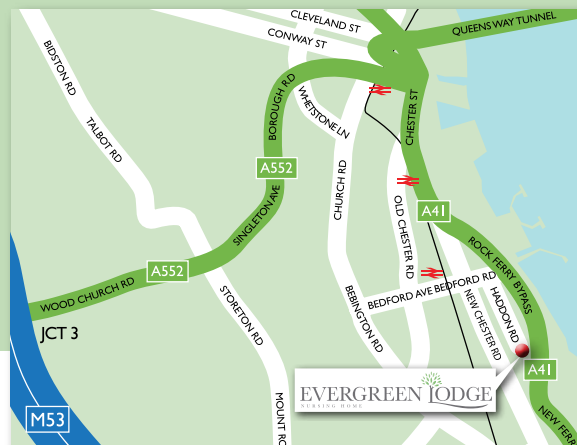

The Bungalow provides full time care for people under the age of 65. In addition the unit can provide day care services for people with early onset dementia who do not live in the bungalow.

Accommodation

The Bungalow comprises eight well appointed bedrooms, most of which have en suite facilities. Residents are encouraged to make these areas personal by using their own furnishings and personal belongings if they so wish.

The Bungalow is completely separate from the main nursing home, having the benefit of its own entrance and garden area. The unit also has a kitchenette, dining room, family and recreation room, and a lounge.

Philosophy of Care

Our philosophy of care is to maintain and maximise each individual's independence and dignity. This is achieved through our specialised individual social activity based care plans.

- Person centred care plans are put in place for all our residents, and we work closely with our residents, their families, and their health workers in determining their individual care package.
- Our staff are highly trained in dementia care and most hold specialist NVQ qualifications in care.
- We aim to provide a safe and secure environment for all our residents whilst ensuring that our residents are able to fulfil the activities they desire in order to have a good quality of life.
