Please  
contact our  
manager, Emma, on  
**01704 545 054**  
to arrange your  
viewing of the  
home!

**You can expect beautiful panoramic views at our Lakeside View Care Home in Southport.**

Located on the promenade, with stunning views of the lake, Lakeside View Care Home is a central part of the Southport community. Having recently undergone a total refurbishment, the care home now boasts bright, modern, and spacious living areas across all four floors. While all the rooms are fully furnished and have en-suite facilities, we encourage our residents to bring their own furnishings to personalise their room, making it easier for our new residents to settle into their new home.

All of the needs and requirements of the residents in Southport are taken care of by our exceptional care team, and they work hard to provide a safe and secure environment for everyone. The dedicated team also tailor individual care programmes for each resident to help build confidence and maintain a healthy level of independence.

## Our Care Philosophy

Our staff aim to uphold the highest standards of holistic and dementia care to all our residents, whilst also encouraging and maximising resident independence. We look to learn as much as we can about our new residents prior to them joining to provide the most suitable environment for them. Making sure all our staff are well-educated on every resident's specific

needs and requirements is vital for providing a safe and secure environment, so we also conduct regular assessments to update residents' personal care plans. Each resident is assigned a healthcare professional who will oversee their general care and make sure their wellbeing is upheld.
